SUMMARY

I'm a Data Analyst with a BCA degree and hands-on experience in data analysis, data cleaning, visualization, and reporting. I'm comfortable working with **SQL, Excel, Power BI, Python, Pandas, and DAX**. Through various projects and virtual internships, I've worked with real-world datasets, cleaned and transformed data, built interactive dashboards, analyzed KPIs, and identified useful trends and insights. I enjoy turning raw data into clear and meaningful information that can support better business decisions. I'm looking for a **Data Analyst, Business Analyst, MIS Analyst, or Reporting Analyst** role where I can apply my skills, contribute to the team, continue learning, and grow professionally.

TECHNICAL SKILLS

- Data Analytics:** Data Cleaning, Exploratory Data Analysis (EDA), Data Transformation, Trend Analysis, KPI Analysis, Business Insights, Data Collection, Reporting, Pattern Analysis, Data visualization, Descriptive Statistics, Data Validation, Root Cause Analysis
- Programming:** Python, Pandas, NumPy, Matplotlib, Seaborn, Data Manipulation, Statistical Analysis
- SQL & Databases:** SQL, MySQL, PostgreSQL, Joins, Subqueries, CTEs, Window Functions, Aggregations, Filtering, CASE Statements, Data Extraction, Query Optimization
- Excel:** Advanced Excel, Pivot Tables, XLOOKUP, VLOOKUP, INDEX-MATCH, Data Cleaning, Charts, KPI Dashboards
- Power BI:** Power BI, Power Query, DAX, Data Modeling, Interactive Dashboards, KPI Cards, Data Visualization, **Calculated Columns, Measures, Slicers, Drill-Down, Dashboard Design**
- Tools:** Git, GitHub, Jupyter Notebook, VS Code, Google Sheets

EXPERIENCE

Data Analytics — Hands-on Experience

Project-Based Experience

- Worked with real-world datasets using **Excel, SQL, Python, and Power BI** for data cleaning, analysis, and visualization.
- Built interactive **Power BI and Excel dashboards** to track KPIs, identify trends, and present business insights.
- Performed **exploratory data analysis and business analysis** to identify patterns and generate actionable insights for decision-making.

PROJECTS

SaaS Customer Expansion & Churn Analytics — SQL, Python & Power BI

Jul 2026– Aug 2026

- Analyzed SaaS customer, subscription, usage, support, and churn data to understand revenue and customer behavior.
- Used **SQL and Python** to calculate MRR, ARR, churn rate, churn reasons, and identify potential expansion opportunities.
- Developed an interactive **Power BI dashboard** to monitor revenue, churn, customer segments, and expansion opportunities.

E-Commerce Sales Analysis — Python & Power BI

Jun 2026 – Jul 2026

- Analyzed e-commerce data from customers, orders, payments, products, and sellers to understand sales and business performance.
- Cleaned, transformed, and merged multiple datasets using **Python and Pandas**, followed by exploratory data analysis.
- Built an interactive **Power BI dashboard** to track sales, orders, customers, sellers, and key business KPIs.

Quantum Retail Analytics — Python & Excel

May 2026 – Jun 2026

- Analyzed customer and transaction data to understand purchasing behavior and identify trends in the chips category.
- Performed data cleaning, customer segmentation, and statistical analysis to evaluate sales and customer patterns.
- Conducted **store trial analysis** and provided data-driven insights and recommendations for business decision-making.

EDUCATION

Bachelor of Computer Applications (BCA) – Computer Science

Aug 2023 - May 2026

Invertis University , Bareilly, India

CGPA: 6.8

CERTIFICATIONS & PARTICIPATION

- Data Analytics Job Simulation — Deloitte** *Jul 2026*
Completed Virtual Experience Program, covering SQL ,Python ,Power BI.
- GenAI Powered Data Analytics Job Simulation — TATA** *Jul 2026*
Completed training focused on SQL, Excel, Power BI, Python, and data analytics with practical exercises and projects.
- Data Analytics Job Simulation — Quantum** *Jul 2026*
Completed a practical data analytics program involving customer and transaction data analysis, and business insights.
- Data Analysis with Python — IBM Cognitive Class** *Nov 2025*
Developed practical knowledge of data analysis, visualization, and business problem-solving through hands-on learning.
